FOREWORD

The Mohawk Indians that once inhabited the area where Guilderland Central High School is now located could never have foreseen a building as streamlined and modern as our present high school. The activities and customs of these Indians is the theme of the 1957 Tawasenthan. As you leaf through the pages that follow, the contrast between the life they led and the lives that we are leading in this modern age is apparent. We are, therefore, both humble and appreciative of the opportunities provided for us by our parents and the community—opportunities that those before us did not enjoy.

We, the staff, dedicate the 1957 Tawasenthan to Mrs. Dorothy Jenner, our school nurse. Her untiring efforts, strong sense of humor, and boundless energy have endeared her to all of us. She is our individual choice for she treats us as individuals.

THE PRINCIPAL SPEAKS

This year, as every year, thousands of principals will write "messages" for hundreds of thousands of seniors across the country. Some of us have been doing this for more years than we care to recall. Interestingly enough, however, it's one of the more pleasant tasks we perform. It never becomes mere routine. It's always a challenge. And it's always rewarding, if only indirectly.

What can a principal say to the seniors via the yearbook page? This particular principal feels that this particular "word" should be geared toward the future, in the light of what our past experiences should have taught us. Patrick Henry is said to have felt that "I have no way of judging the future except by the past." This is a valid premise, generally, but we are certain that in many cases it's an over-simplification of the problem.

It is true that if you've been reasonably successful in high school, you may expect, with the same effort, to be reasonably successful in your post-high-school-life. But what of the individual who has achieved only to the degree that he just "got by"? What are his chances for successes? Here is where the breakdown begins. It's at this point that things become rough. The competition is much more extreme; the pressures are greater; the expectations are higher; and the rewards and penalties are more readily recognizable and, consequently, often more desirable. He's got to work harder; it's as simple as that.

What we are trying to say, of course, is that it's entirely possible that you *will* be graduated without having always put your very best effort into the situation. Some of us have a remarkable faculty for just getting by. That will soon be in the past, though; and it will become more and more apparent to you that you will get out of life (your college, your work, your Armed Service experience) exactly what you have put into it in the way of effort, imagination, seriousness of purpose, and loyalty. You can't be satisfied, any longer, with any effort short of your very best. If you are, you will find that the competition is too tough, that, unfortunately, you'll be left somewhere, sometime.

Your amateur days are over. You're in the game for keeps, now. It's big league all the way, and you'll find that the opportunities we've been providing for you to make choices will really pay off. Remember there are not too many "second chances" after high school. Life after high school is even more of a two-way situation than it was in high school. Nothing less than your best is acceptable if you expect to be successful and—we're sure you will be.

NOSTALGIA

Many days have passed us by
Since Altamont no longer is in the sky
Lunching on F.F. and soda pop
Dreaming thoughts of rise to the top

Entering Guilderland for a fling
Make new friends, and Sophomore swing
The time well spent really flew
And all at once Juniors new

As Juniors we were really proud
Buttons popped, Prom drew crowds
Our New York trip was sure a treat
But back we came sorely beat.

Our final year brought us good cheer
"Books and Crooks" exhaustion near
Our dances, games, and prom were dear
Exuberantly we approached the end of our school year

STUDENT COUNCIL

STUDENT COUNCIL OFFICERS

Seated, left to right: Ann Hilton, Recording Secretary; Mrs. Bruno, Advisor; Donna Willett, Corresponding Secretary. Standing: Richard Ryan, President; Jack Jenner, Treasurer; John Thorsen, Vice President.

The main purpose of the Student Council is to serve as a liaison group between the administration, the faculty, and the student body. This year the Student Council has made a great deal of progress in achieving this goal. One of the methods it used was monthly panel discussions on pertinent school problems.

The Scepter Service Club was formed by a group of G. C. H. S. girls to be a counterpart of the Key Club. The main objectives are service and school citizenship. The biggest project thus far has been the MOUNTAIN OF PENNIES drive for the scholarship fund. Last year the club collected over $300 during the drive. The girls are asked to usher, sell tickets, act as guides, participate in the U. S. Exchange Student project and perform other duties that arise on the spur of the moment.

KEY CLUB

The Key Club is a club for boys, sponsored by the Kiwanis Club. Service to the school is the keynote of activity.

Mr. Cummings and the Officers.

The Junior Honor Society consists of members in the 8th and 9th grade. If they maintain their high scholastic standing they then enter the Senior National Honor Society. They must have an average of 85 or better to be eligible. One of the purposes is to encourage service to the school and community, as well as achieve success in their academic studies. One of our enjoyable duties this year was to serve refreshments at the Faculty-Varsity Basketball game.

Mr. Cummings meets some of the officers and members in lobby.

S. in association with the American Field Service.

These pages contain the third edition of the "TAWASENTHAN" of Guilderland Central High School. Our first edition represented an increase of 38 pages over the final Altamont High yearbook; last year our coverage was increased to 128 pages and this year to 134 pages.

Our staff, as you can see, was split into nine sections in order to provide a greater opportunity for more students to perform a greater variety of duties. Each section planned its own needs, laid out its own pages, and prepared them for final approval.

Representatives attended the Columbia Scholastic Press Conference in New York City in March to compare their ideas with some of the 4500 other representatives and have returned with many new suggestions for the 1958 edition. Columbia gave our '56 yearbook a second place rating, we hope this edition will bring even greater credit to our school.

SOCIAL

In 1953 the American Field Service foreign student and summer programs were started at GCHS under the sponsorship of the Senior National Honor Society. The purpose of the programs is to increase understanding and goodwill among the peoples of the world. This is accomplished by bringing teen-age students from abroad to study in American high schools and live with American families for a year. During the summer, a group of American teenagers go to Europe to live with families abroad.

TOSHIKO OKADA

Mount Fuji Yama in Japan.

Ambition:

I have a very ambitious plan for my future, and I believe firmly that I shall be able to realize it.

My desire is to be able to engage in some work in which I shall be able to join hands with all peoples, regardless of their race or national feeling. To do this, a knowledge of foreign language is fundamentally necessary. Fortunately, I love English and I feel that I shall be able to master it comparatively quickly. Then I shall concentrate on learning German and other languages.

With this purpose in mind I hope to be able to go to the International Christian University after graduating from high school.

LINDA BRADT

The first two years of the program, students from Holland and France attended GCHS and we sent students during the summer to Holland and Germany. This past summer Linda Bradt was the summer program representative to Sweden and this school year we had in our school a Japanese girl—Toshiko Okada—who lived with the Kaasa and Griessel families while attending our school.

Ambition:

My experience this summer was not only a most enjoyable one but an experience which helped me decide on my future work. I realized that so much could be done to promote world understanding and peace, and an excellent way in which to do this was by conversing with the young people. To become a teacher and work in one of the European schools is now my ambition. It was only in receiving the A.F.S. scholarship and living in Sweden that I realized that this was what I wanted as my career.

Girls . . .

see us for a good job now!

Want a good job after graduation? We have a variety of interesting positions to choose from. One is bound to suit you to a "T." Starting salaries are good – with increases at frequent intervals. There's plenty of opportunity for you to advance to even better, more responsible positions, too. You work with girls just like yourself–friendly girls with similar backgrounds and interests. And you'll find working conditions very pleasant.

There's no need to wait until after graduation to apply. If you're a senior, we want to talk to you *now!* Come in and see us at:
